Concerning False Allegations:

As you can see for yourself, the false allegation of FBI Agent, and US Marshall was uncalled for, in the petition for administration of psychotropic medication. My license speaks for itself, being an issuance of the Executive Branch of Government. My integrity wouldn't warrant this type of presentation, and the mention of mail-order supply house is enough, "{anybody can do this!}", I rest my case with your look into this matter of not being intimidated, due to my condition at this moment.

There was also a letter mailed by the Consulate General of Egypt, and addressed to the doctor here at elgin, stating me as a patient of no circumstance, and making the decision of help or value, to the institution for me, and government. My request is for the investigation of legitimacy in this letter, and it's representation to "Egypt".

I am, also looking at the hospitals' deception of me as delusional, because I have Government Credentials, giving me, and the environment here, the thought of elusion, this should stop, unless proven, that my identification is false.

Sincerely,

CLERK OF THE CIRCUIT COURT

PETITION FOR ADMINISTRATION OF PSYCHOTROPIC MEDICATION

April 20, 2000.

Mr. Baker has a history of delusional thinking and assaultive behavior dating back to the early 1970's. Since his admission to Elgin MHC on 3/9/89, he has exhibited an increasing preoccupation with his delusional beliefs. Mr. Baker holds the delusional belief that he is king of the Egyptian kingdom, and an FBI agent and US Marshall, and that he carries, "Official credentials and badges". His so called "credentials" were discovered by the Elgin MHC Security staff and were considered contraband items, and, therefore, they were confiscated. Mr. Baker obtained the badge through a mail-order supply house which he believes that he is a government official before he can order it. He "expects the staff to treat him as a peer since he is in law enforcement too." On 2/14/2000, Mr. Baker wanted to discuss the need to make out a release so that staff on all three shifts would be able to examine his official credentials. He wanted staff to be very aware that he is not a patient and that he should not be treated as such.

Mr. Baker does not acknowledge that he has a mental illness. He would confront people when the subject is on his mental illness. He would say, "Define paranoia for me. I'm not guarded; its my personal business. How can you define what my feelings are? If you can't analyze me properly, without respect, I think that you're wrong", and "Don't assume that I'm in a mental hospital that you think I'm crazy, you should give me the benefit of the doubt, and check me out first, before you call me crazy". He does not understand the implications of his mental illness to the crime in which he was adjudicated Not Guilty By Reason Of Insanity on 2/24/1989 at the Circuit Court of Cook County. Mr. Baker has had 3 previous DHS admissions. His first DHS admission was in 1974 at Chicago Read MHC. The second admission was reportedly at Tyinley Park MHC. The third admission was again at Chicago Read MHC in April, 1974. During his last admission at EMHC in November, 1987, Mr. Baker had threatened to kill a technician. He has a long history of refusing psychotropic medications. Records reflect that in the past, he received a low dose of Haloperidol for a short period of time, but stopped taking it. Again, he was prescribed Thorazine on an outpatient basis, but he did not comply. During his current admission at EMHC., he has always refused taking psychotropic medications, saying he does not need it.

Mr. Baker continues to remain extremely guarded, and delusional. He also experiences auditory hallucination. Since his transfer to this unit on 9/2/1999, he has always been demanding, argumentative, grandiose, and becomes hostile and threatening easily. There were numerous times that he questions/ challenges the unit rules and policy, and then calls the facility administrator, or Guardianship and Advocacy to address his complaints. On 10/14/1999, he was involved in an argument over TV channels. In the months of November and December, 1999, he was involved in a lot of arguments with staff over his rights are being violated because he had to keep the washroom door open. Again, he complained to the Guardianship and Advocacy office. (In early December, 1999, his petition to Court for Conditional Release was returned to him,) and he felt that it was tampered without realizing he missed filling out some information.) At end of March,

2000, he argued with the facility administrator over the return of his "credential" and badge. When being denied, he accused the administrator withholding information that he wanted to send to his judge, to prove that he is being kept here illegally. On 4/19, 2000, he assaulted another peer by punching his head twice, saying the person had wiped something onto his food during breakfast time. They were separated by staff, but he continued to be upset (and said that he would hit the person again if he had to.)

At this time, Mr. Baker continues to refuse most treatment modalities, except doing activities with the activity therapist, going to the gym to work out and talking to his caseworker regarding his need for phone calls to his public defender. (He spends most of his time reading, working on his lap-top computer and making phone calls to his public defender, Egyptian Consulate, and the Guardianship and Advocacy office.) He remains to be preoccupied with the delusional belief that with his government credentials, he should be administratively released from the hospital.

Letter of Introduction: Government Credentials and Disposition...

I am a patient confined at Elgin Mental Health Center. I have been here since 1989, and locked up in 1985, 17 years of the month of August. I'm here for murder and was found not guilty by reason of insanity { N. G. R. I }, and given a date of 80 years, I will do 40 years of that. For three years I have been waiting for my release from the hospital of Elgin Mental Health Center, but due to legal technicalities, with the status that was given to me by the executive branch of the United States of America. Title of Enforcement Special Security USA, License No. S O F O 3, for as long as I am in this country. After 12 years I've had the title KING OF EGYPT since 1990, and recognized by the government of the United States, for 3 years as KING of the Egyptian Government.

There will be a copy of my Identification, Government Credentials and Disposition. My concern is the mistreatment of affair's with due prejudice, this has been obvious since 11-01-98 the day I received my identification. Every address with recognize is that I am delusional about my identity with mental state of incompetence because of Government Credentials.

CONDITIONS OF PERMIT ON REVERSE**LAMINATION INSTRUCTIONS**

To laminate your card, simply follow these instructions using a household iron. For greater ease, we recommend the use of a heat laminating machine. These are usually available at libraries, video stores, etc. If you provide the laminate pouch, you may be able to have your card run through a laminator for a nominal charge!

1. Set iron on lowest heat setting. Do not use steam. Remember: you can always add more heat, but if your iron is too hot, the laminate will become distorted!
2. Carefully position card in laminate, and place on a firm, smooth, non-flammable surface.
3. Place a sheet of paper between the laminate and the iron.
4. Apply iron with even pressure over entire card. Turn the card over and repeat.
5. Check edges of laminate to see if the sealing process is complete. If not, apply the iron again to the edges only until the sealing is accomplished.
6. Trim to fit your wallet or card carrier. Be certain to leave some plastic on all sides to insure that your card is waterproof.
7. If anything goes wrong, remember NIC guarantees all products. Just return your card and we will replace it free!
